5. Bottle is labeled with a lot number that traceability is possible
6. Tested for heavy metals. (See chart below)
7. Tested by an authorized certification laboratory.

Eternal Ink has been tested for the Aryl Amines listed below. The method of analysis was GC/MS the unit was mg/Kg the detection was tested at 2.00ppm and the measured concentration /results were below <2.00ppm

Date/time Analyzes 10/10/07 12:56 AM

O-Toluidine	4-Aminonaphthalene
2,4-& 2,6- Dimethylaniline	4-Aminoazobenzene
o-Anisidine	4,4'-Oxydianiline
p-Chloroaniline	Benzidine
2-Methoxy-5-methylaniline	4,4'-Diaminodiphenylmethane
2,4,5-Trimethylaniline	4,4'-methylene-bis (2-methylaniline)
3-Chloro-o-toluidine	2-Aminoazotoluene
4-Chloro-o-toluidine	3,3'-Dimethylbenzidine
2,4-Diaminotoluene	4,4'-Thiodianiline
2,4-Diaminoanisole	3,3'-Dichlorobenzidine
2-Aminonaphthalene	4,4'-Methylene-bis(2-chloroaniline)
2-Aminobiphenyl	3,3'-Dimethoxybenzidine
2-Methyl-5-nitroaniline	

Heavy Metals tested for and in compliance with (below detection limit <1 ppm)

Aluminum, Arsenic, Beryllium, Cobalt, Chromium, Nickel, Lead, Antimony,
Selenium, Titanium, Mercury
